2. Display the Messages FIRE AND HELP
with flickering effects on 7-segment
display, interface for a suitable period
of time

```c
#include<stdio.h>
#include<reg51.h>
void delay
char xdata CommW at 0xe303;
char xdata portB at 0xe801;
char xdata portc at 0xe302;
char port[20] = {0x8e,0xf9,0xde,0x86,0xff,0xff,0xff,0xff, 0x89, 0x86, 0xc7, 0x8c}, i;
void delay()
{
    for (i=0; i<3000; i++)

    {

    {

void main()
{

    int d, b, j, m;
    unsigned char k;
    CommW = 0x80;        //using Band as
    do                        input
    {

    i=0;
```
